

DIRECTLINK UPDATER PART NO: 1000W COMPATIBLE WITH: 1100X/1100F

Make your excess inventory history with Directlink Updater from Directed Electronics. Directlink Updater is a hardware kit that will allow the installer to convert 1100F and 1100X interface modules to cover 10 different vehicle platforms by simply downloading vehicle software integration solution into the interface module through the Internet. Provides convenience of minimizing the number of modules to be carried, ability to update them as needed at any time and minimizes risk of having obsolete inventory as new vehicle platforms get released.

OVERVIEW

BENEFITS

- Allows you to convert your 1100X and 1100F into other platforms

• Ability to upgrade the module 24/7 over the internet in minutes for FREE (after the 1000W kit has been purchased)

• Since the software can be reloaded, no risk of having obsolete hardware as vehicle platforms change

• Directlink Updater determines version of the current software on the module prior to the download

INCLUDES:

• DIRECTLINK UPDATER CABLE

Please follow the 8 easy steps outlined below to set up your Directlink Updater and download the software to the 1100X or 1100F interface module:

STEP 1

Make sure your computer has Internet connection and your computer meets minimum system requirements which are: Windows XP (SP2), Windows 2000 (SP4), and available USB port.

STEP 2

Go to www.directechs.com. Login and proceed to download/directlink updater, click on download tab to download the file. Once the download is complete, click "Run" and install it on your computer. Now you should have Directlink Updater icon on your desktop and under Start/ All Programs menu.

STEP 3

Plug in 1000W cable into the USB port of your computer.

STEP 4

The following window will pop up. Select "Yes, this time only" and click "Next". In the following window select "Install Software Automatically (Recommended)" and click "Next" again. Your computer will search for and install necessary drivers for the hardware to operate. This can take a few minutes. Once the driver installation is complete and you clicked "Finish" in the confirmation window, step 4 will automatically repeat again. Just follow the same steps.

STEP 5

Start Directlink application by clicking an icon on your desktop or by going to Start/All Programs/Directlink.

STEP 6

Connect 1100F or 1100X interface module to the 1000W cable.

STEP 7

Directlink application will bring up a window showing what kind of software is currently uploaded to the module.
